AHS | CORE VALUES

SCHOLARSHIP

The creation and application of knowledge, with an emphasis on inquiry, research, experimentation, investigation, and creative production. Creating educational opportunities which address the learning of *ALL* students.

LEADERSHIP

Motivating others to take actions for the betterment of their school and community. The influence of individuals or groups can influence and energize ideas, actions, and capabilities of others toward promoting school pride, a safe school environment and positive community citizenship.

PARTNERSHIP

Working collaboratively to address complex issues and problems, both within and beyond the boundaries of AHS. A high school cannot solve problems or increase student learning working in isolation. It must do so by interacting with all stakeholders. By working in partnerships, we gain an understanding and a shared responsibility of what can be accomplished together that could not have been accomplished alone.

CULTURAL AWARENESS

To foster a student's ability to appreciate, investigate, and understand a cultural background different from his or her own as a means of bringing our students together. Cultural awareness promotes tolerance, relationships, and respect for a variety of cultures, domestic and international, and facilitates opportunity for interaction, communication and engagement within a local and global community.

AHS | CORE VALUES - GOALS AND STRATEGIC ACTIONS

1. Place students at the center
2. Achieve academic excellence
3. Forge key relationships and partnerships
4. Establish a sense of "place"
5. Create opportunity for involvement and leadership
